

SL01A

## Daylight Sensor

光感器

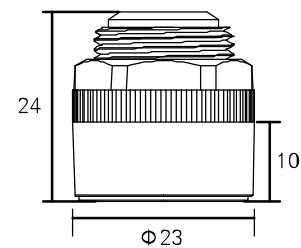

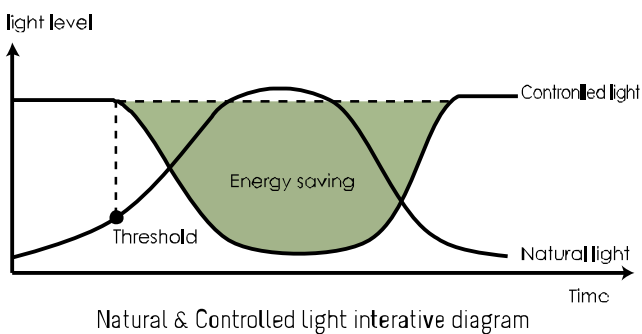

## Features:

- High sensitive light sensor inside.
- Detect environmental luminance and control dimming automatically.
- Adjustable daylight sensor threshold.
- Wide detection area.
- Compatible with 1-10V dimming driver and microwave sensor.
- Compact size to suit various luminaires.
- Easy to install and suitable to meet various installation methods.

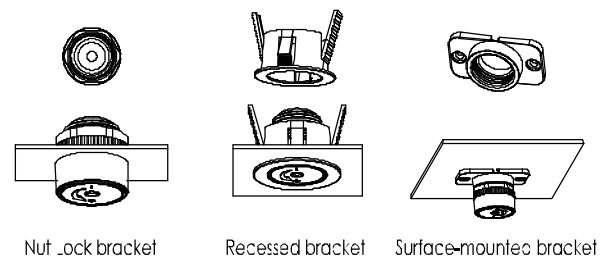

- 内置高灵敏度光感应传感器
- 自动检测环境亮度，并自动调光
- 光感应阈值可调
- 感应角度大，范围广
- 可与1-10V驱动、微波感应器组合使用
- 超小尺寸，适配各种灯具类产品
- 安装简便，支持多种安装方式

## Parameters:

Model No. 型号	SL01A
Control voltage 控制电压	1~10V
Ambient light threshold 感应阈值	10~500lx
Control line 控制线	red+ black-
Operating temperature 操作温度	-20~+50°C
Viewing angle 感应角度	90°
Fixing centre D 安装间距	Ø20mm
Cable length 线缆长度	70cm
Max. permitted cable length 最大线长	20m
IP rating 防护等级	IP20
Max. output current 最大电流	50mA
Max. number of ECG in control 最多接入数	40 pcs

## Standard accessories:

## Wiring:
